---

## Ventures

Ventures offers opportunities for people who receive support to learn something new and get connected to their community.

Ventures is designed to empower people with disabilities towards an improved quality of life by providing various forms of volunteer, leisure and recreational opportunities. Whether it is through volunteering or choosing to become a member with a service organization, being connected offers someone an opportunity to participate in and give back to their community. Ventures has created strong links with community partners to assist the people we support as they fulfill roles that are essential within our Windsor community.
